Experience

Accuraty Solutions Champaign, Illinois

Web Developer, October 2014 to Present

Design and develop user-friendly websites, interactive systems, and applications for clients. Customize and configure content management systems. Create UI/UX wireframes and mockups. Work one on one with clients from initial meeting to project launch. Implemented a new internal workflow and project architecture to make theming and development more efficient and modern. Currently working remotely.

Freelancer

Designer and Developer, July 2014 to Present

Complete a variety of work (logos, websites, etc.) for clients. Design, edit, and maintain websites.

Orange County Register California

News Design Fellow, February 2013 to July 2014

Layout, centerpiece, and cover design for various newspaper sections and products. Selected by the editor-in-chief to be on a two-person digital team responsible for leading a redesign for the website and building spin-off products.
