

SUMMARY

I'm a full-stack software developer who enjoys working at the intersection of engineering and design. I specialize in building websites and apps that provide intuitive user interfaces while also being scalable and efficient. My goal is to make products that help people.

PROJECTS**Q&A** github.com/hczj/q-and-a

Virtual classroom with video chat, code/text editor, and whiteboard. Built in a 15-day sprint.

- ▶ Developed and implemented the features that use WebRTC and sockets.
- ▶ Led the architecture of database schema and database seeding.
- ▶ **Live Demo:** q-and-a-fullstack.herokuapp.com • youtu.be/gxCZrut25-c
- ▶ **Stack:** WebRTC, Socket.io, React, Redux, Node, Express, Sequelize, CSS/Sass

Finnys github.com/ekjc/grace-shopper

E-commerce app with filtering, shopping cart, and checkout. Built in a 10-day sprint.

- ▶ Implemented product catalog, admin functionality, form validation, and site design.
- ▶ People's Choice winner for best team project at Fullstack Academy.
- ▶ **Live Demo:** finnys-fullstack.herokuapp.com
- ▶ **Stack:** React, Redux, Node, Express, Sequelize, Mocha, Chai, CSS/Sass

PubsPlus pubsplus.illinois.edu

E-commerce system built for a client of Accuraty Solutions.

- ▶ Developed and shipped a customized website for the University of Illinois.
- ▶ Contributed all design and code as the solo developer assigned to the project.
- ▶ **Stack:** CSS/Sass, HTML, JavaScript, C#, .NET, C#, Angular

PongPal github.com/chrismlusk/stackathon

Hackathon machine-learning experiment to teach an A.I. to play Pong in the browser.

- ▶ People's Choice winner for best individual project at Fullstack Academy.
- ▶ **Live Demo:** youtu.be/aaNyoI_B2rU
- ▶ **Stack:** JavaScript, TensorFlow.js, Python

EXPERIENCE**Teaching Fellow @ Fullstack Academy of Code**

September 2018 to present — Chicago, IL

- ▶ Mentored and taught JavaScript concepts to 75+ bootcamp students.
- ▶ Oversaw four student projects as technical adviser and project manager.
- ▶ Conducted admission interviews for prospective students.

Web Designer and Developer @ Accuraty Solutions

October 2014 to June 2018 — Champaign, IL

- ▶ Developed and maintained code for client websites and applications.
- ▶ Tested sites to ensure cross-browser compatibility and mobile responsiveness.
- ▶ Customized and configured content management systems.

SKILLS & TOOLS

Front End: JavaScript (ES6+), React, Redux, HTML, CSS/Sass, Bootstrap, jQuery

Back End: Node, Express, Sequelize, PostgreSQL, RESTful APIs, PHP, Python, GraphQL

Other: WebRTC, Socket.io, Git, Web Accessibility, Mocha, Chai, Enzyme, WordPress, DNN

EDUCATION**Fullstack Academy of Code**

May 2018 to August 2018 — Chicago, IL

- ▶ Software engineering bootcamp focused on front- and back-end JavaScript.

University of Oklahoma

January 2009 to December 2012 — Norman, OK

- ▶ Bachelor's degree in journalism with a concentration in digital media.
